IN THE
CITY OF JANESVILLE, ROCK COUNTY, WIS.

WILL be offered at public sale on the 23d day of October next, THREE HUNDRED CHOICE LOTS, situated around, and all within 200 rods of the Union Depots of the Milwaukee & Mississippi Chicago St Paul and Fond du Lac, and Southern Wisconsin Railroad Companies being among the choicest property within the limits of the city
Next to Milwaukee Janesville ranks as the most flourishing and healthy town in Wisconsin Without any excitement in speculation to hasten or force on its progress from the beauty and healthfulness of its situation, its extensive water power, (the Rock River affording two powers within the city) and the fact that it draws the trade of a large district as rich in agricultural resources as any in the Great West the town has had a steady, and at the same time a rapid growth The number of inhabitants now exceeds 9,000, and visitors cannot fail to be impressed with the evidences of business and enterprise presented on every hand
By the completion of the Chicago road, the place is brought within two hour's travel of the Great Emporium of the Northwest, and this connection is destined to make rapid advances in the growth of Janesville and the prosperity of all the country round about The Southern Wisconsin road leads in from the west and will be in operation, next summer, as far as Monroe, the county seat of Green county thirty miles distant In the course of the next two years, this will be the centre of five railroads, and even now it is the great produce market of southern Wisconsin
The Rock River Valley is the garden of the Northwest unsurpassed in its natural resources, and everywhere presenting beautiful landscapes of prairie and Oak openings
The attention of all who wish to avail themselves of an opportunity to make profitable investments, or to purchase a site for a home, is solicited Abstracts of title, and particular information can be had from the undersigned
Terms of sale—One fourth cash and the remainder in equal instalments at one two and three years—interest seven per cent, and security on the property

TO BRIDGE BUILDERS.
THE LaCrosse & Milwaukee Railroad Co. invite proposals, with plans and specifications, until Wednesday noon, Oct 15th next, for building a bridge over the Wisconsin river, on the line of their road. This road extends in a north westerly direction across the State, from Milwaukee, on Lake Michigan, to La Crosse, on the Mississippi River, crossing the Wisconsin River at Kilbourn City in Columbia County. The river, at this point, runs in a rocky bed, the banks of which are vertical rock bluffs to the height of 80 feet above low water, at which point they are at the grade of the line of the road, and about 300 feet apart. The water is about 20 feet deep having in the middle of the stream, a few feet of sand overlying a rock bottom. It is proposed to erect two piers about 50 feet from either bank, at which the water is about 5 feet deep at low water, with an island rock between giving a span in the middle of 200 feet, and two short spans at the ends, resting upon the natural rock as abutments. It is desired also to construct the bridge so as to give a wagon way below the R R track, placing the latter over the higher section of the bridge. The Company reserve the right to award the contract to any parties, on any plan furnished, but in case of their giving the contract to any builder on any plan furnished by any other person, they will pay to the person furnishing such plan the sum of FIVE HUNDRED DOLLARS in full consideration of the plans and specifications so adopted.

PERFECT PROTECTION FROM THE ELEMENTS.
WEST'S
Patent Galvanic Cement for Roofing.
THE ATTENTION of Architects, Builders, and the public generally is invited to this roofing—as being far superior to other compositions in use for like purposes. In fact, we think it superior to any other Roofing, for it has more essential qualities combined requisite to roofing, than any other material ever used, viz: Impervious to water, incombustibility, durability and cheapness. It is Fire and Water proof, and can be applied to flat or steep roofs. In its texture and appearance it resembles [illegible] will not soften and run in the warmest weather, nor become hard and crack in the coldest—therefore it forms a good walk on piazza's, flat roofs, car tops, steamboat decks &c. Its fire proof qualities particularly adapts it to [illegible] buildings, engine shops, &c. It is [illegible] adapted to repairing old roofs, securing [illegible] battlements, sky light and chimneys, and for lining eave troughs, &c.
This roofing is being extensively used in the Eastern States on the most expensive buildings. Testimonials may be seen from the owners of buildings, Builders and Architects, [illegible] at the office.
